Standard Chartered Bank is using a Cheque Processing System (CPS) developed by Advanced Software Development (ASD). We are very satisfied with the services provided by the ASD support team, provided as and when required, and congratulate ASD for such wonderful software and performance.

Advanced Software Development (ASD) provides media monitoring services to UNICEF Bangladesh complying with international standards of media monitoring agencies. ASD maintains its quality services constantly. We are proud to have ASD as Bangladesh's media monitoring service provider. We wish you all the best for your future growth.

Our ERP solution has transformed our business. We've gone from chaos to efficiency, thanks to its data management and communication capabilities. Our profitability has soared, and our processes are streamlined. It's not just software; it's a catalyst for positive change.

The biometric verification system has revolutionized our security and efficiency. With a simple touch or glance, it enhances accuracy and streamlines operations. It's an indispensable and dependable solution for our organization.

This Club Management Software is a must-have. It boosts efficiency, and handles memberships, events, and communication seamlessly. Members love its user-friendly interface and online payments. The responsive support team is a real asset. Elevate our club's organization and satisfaction with this software.
